Dear Friends of Animals,

Stash was an abandoned, flea-infested cat suffering from flea allergies. When he was brought to Furry Friends, much of his fur had fallen out and he had scabs from head to tail. Then there is Vienna who came to us with a broken pelvis, deserted by her owners. Once in our care, they were given the medical attention, love, and recovery time that they so badly needed. They are now happy, healthy cats ready to be adopted by loving families. These are just two examples of the cats that come into Furry Friends care.

Furry Friends is a 501(c)(3) nonprofit, no-kill, all-volunteer organization founded in 1999 that rescues and adopts out homeless and relinquished cats in Southwest Washington and beyond. We provide medical care and shelter for more than 150 cats annually, offer pet therapy to seniors, and educate the public on caring for their cats.

On Saturday, September 15, 2018, we will hold our 10th annual Dinner and Auction at the Firstenburg Community Center.
